and re-education
system

Shift education system for students as customer

Cool managers know needs of shift education system for customer from education system for self- satisfaction of researchers and staff. Most of students and parents want power to survive in confused society. Enterprise want for student to ready fighting power as like businessman of middle way. They also want for students to have fresh sense, motivation and social skill ability. Society want college to training for students as follow.

• **1point : format for rearing of logical thinking**

selection and analyze from much information, creative model, ability of design

• **2point : communication skill ,social skill**

• Speaking and composition that is easy to understand in level of consciousness.

• Listening that give another man to feel relaxation.

• **3point : realize sense of love**

Love is fundament of value and brief .The origin of love is self love including self acceptance. Loss of self acceptance lose love. Love guide to creative wisdom and action for social. Therefore, at first, students need self acceptance for teachers to coordinate.

Training system and re-education system of researchers

For shift education system for students as customer, manager need redevelopment of man power. By linkage of small scale and unknown college, managers can decline cost of redevelopment. Researchers have high pride with high wisdom. Prides in mind create to many boundary of motivation and action. Many pride express unconsciousness as damage of the past. Therefore, researchers aren't damaged, manager must guide researchers to less of boundary in their mind with declining cost. At first, manager need to appeal motivation of researchers. Lab Link propose 2key for cost –cut and motivation up of researchers.

**1key : Joint training system of teacher that is researcher through linkage
of small scale and unknown college to develop**

2key : Joint curriculum project
